## **VILLAGE DESIGN STATEMENT**

**Do you care about how the buildings in our village look?**

**Would you like to find out how you can help ensure that new developments reflect the aspects which local people value and wish to protect?**

**Village Design Statements are written by residents taking residents' views into account and are a recognised way of enabling planners, architects and developers to understand how the community wants to see the village develop.**

**This is a real chance for the community to make a difference in the way planning applications are processed.**
